IN A GLASS.

Terre Haute once had a reputation that traveled far beyond the Wabash River as a city where the law looked the other way, and pleasure came in many forms. From the 1890s through Prohibition, the infamous red-light district just a few blocks from here drew travelers, gamblers, and thrill-seekers from across the Midwest. Behind closed doors, deals were struck, cards were played, and whiskey flowed freely despite the ban.

**Red-Light & Rye** is our tribute to that unapologetic spirit and a nod to the era when Terre Haute earned its place on the map as a city that knew how to have a good time.

Here, every pour of rye and bourbon is a quiet rebellion, every cocktail a taste of that bold, illicit past. Step inside and raise a glass to the nights that built this city's legend.
